EXPERIENCE

SOLENIS LLC – Delaware, United States (Remote) 2026

A global leader in cleaning, hygiene, and specialty chemical solutions for institutional and industrial markets

MBA Intern – Sustainability Reporting

- Automated EHS data collection across 70+ sites by engineering a scalable MS Forms-to-SharePoint pipeline in Power Automate, eliminating manual handling and overhauling the sustainability survey
- Spearheaded survey rollout to global sites by running briefing sessions and equipping sites with SOPs and reference data, driving 85%+ on time submission rate and reducing data collection cycle by 80%
- Built Power BI dashboard suite modeling 100+ survey questions, providing leadership with site-level benchmarking to target gap closures on metrics feeding EcoVadis and CDP Global ratings

SAP SILVER JEWELRY – Salem, India

2024-2025

A jewelry enterprise driving \$1M in revenue, operating across manufacturing, wholesale, and retail markets

Head of Strategy and Operations

- Spearheaded launch and go-to-market strategy of premium silverware line in retail stores to diversify product portfolio and capture higher-margin customer segments, increasing revenue by \$300K
- Developed data-driven dynamic pricing strategy across product categories based on real-time commodity price analysis, market research, and competitor benchmarking, increasing sales volume by 20%
- Revitalized product mix by conducting performance trend analysis, reducing manufacturing costs by 25%, discontinuing 15% of low-demand SKUs, and reallocating working capital to high-potential products
- Collaborated with manufacturing to align inventory fulfillment with demand planning by implementing predictive forecasting to account for volatile commodity prices, reducing excess stock from 55% to 30%

IMPELSYS PRIVATE LTD (Client: Informa) – Bengaluru, India

2023-2024

Project Manager

- Orchestrated cross-functional SaaS platforms integration by aligning sales, product, and engineering teams on data requirements, resulting in a 20-hour weekly reduction in manual effort
- Built centralized dashboard in Power BI by consolidating data from 600+ brands and 10K+ products, providing C-suite leaders with real-time visibility into KPIs and organizational performance
- Streamlined ROB for global B2B exhibitions by managing sponsor and logistics data for 1K+ partners, delivering real-time insights and supporting multimillion-dollar event execution

Associate

2021-2023

- Oversaw data pipeline between CRM and Project Management Systems by designing standardized rubrics and audit metrics, achieving 99% accuracy in customer data validation
- Drove change management process to overhaul audit workflows in Adobe Workfront, introducing rule-based checks and collaborating with cross-functional teams, reducing manual errors by 90%
